Human Capital Management

Time and Labor

Accrual Calculations (Modified) [1307 : 25-Mar-2011]
 Accrual calculations allow calculations in terms of days rather than hours. This provides the ability to accrue and establish limits based upon each employee's standard and non-standard hours worked per day.
 Change: Added in Release 8.12
 Status: Available Type: Feature Industry:
 Examples: Give accruals to employees in units of days, where one employee works their standard 4 hours per day, and another employee works their standard 8 hours per day, both will accrue 1 workday per pay period under the accrual plan.

Accrual Pro-Ration Across Anniversary Years [1308 : 25-Mar-2011]
 PDBA setup has been modified to allow the user to specify how to handle accruals and time taken during a period in which the employee's rollover date is included. The option lets users specify whether time should be allocated to the next anniversary period or to be split across the current anniversary year and the next anniversary year.
 Change: Added in Release 8.12
 Status: Available Type: Feature Industry:
 Child Support EFT Compliance [1320 : 25-Mar-2011]
 Associate additional information to child support wage attachments required to generate electronic funds transfer (EFT) payments in the Accounts Payable system. Added fields in the Employee Wage Attachments and company options allow you to specify which wage attachments generate EFT payments and which Account Payable attachments generate EFT payments.
 Change: Added in Release 8.12
 Status: Available Type: Feature Industry:
 Component Pay [1339 : 25-Mar-2011]
 Define additive component pay type in a definitional accounting instructions. Empty component pay type is defined automatically.
